# Fender® Custom Shop CUSTOM TEAM-BUILT GUITARS Price Guide

Effective Jan 1, 2006

## PLEASE READ BEFORE QUOTING!

The purpose of this form is to give Fender Custom Shop dealers the ability to give ballpark price quotes to potential customers desiring a custom built instrument.

Our history shows us that the majority of the custom orders we receive begin with a familiar Fender model that is then appointed with special features to suit the customer's style and taste.

The column on the right lists the Custom Shop base models; guitars as they are offered in the Fender Frontline magazine and Authorized Dealer Price List.

To get started, choose a Custom Shop Base Model. From there, check the features you want from the **1X Upcharge** menus. **ALL of the choices from these menus are covered in ONE PRICE of \$650**, which you add to the Base Model price. We've also included a list of features that we get lots of requests for. These popular upgrades require an additional charge and are listed in the **Additional Upcharge** menus.

Once the guitar is designed, submit the specifications to the Fender Custom Shop. Final approval, price verification and an estimated delivery date are then determined.

**NOTE! Specific combinations of features may result in additional charges. These charges can only be determined by the Custom Shop. Please inform your customer that this is only a price guide and final pricing must be verified by the Fender Custom Shop.**

For complete descriptions of the Base Model guitars, consult your **Fender Frontline** magazine or go to the Custom Shop section of **www.fender.com**.

The trademarks identified herein including Fender®, Jazz Bass®, Precision Bass®, Stratocaster® and Telecaster®, guitar body and headstock designs are owned by Fender Musical Instruments Corporation (FMIC).
